Use the chart on page 5 of our brochure to help identify the size **K Saver®** PVC Cut & Curl Jacketing needed for an insulated pipe.

- Identify what type of pipe you have.
 - Copper pipe use the chart labeled **K Saver® Jacketing – Copper Tubing Sizing Chart** on the bottom of page 5.
 - Non-copper pipe use the chart labeled **K Saver® Jacketing – Iron Pipe Sizing Chart** on the top of page 5
- Need help identifying the size pipe you are trying to insulate?
 - Copper pipes are usually labeled in ink with the copper pipe size or the outside diameter.
 - PVC and CPVC are almost always labeled in ink with the pipe size.
 - Iron and Black pipe is sometimes labeled but if it is not, the elbows or fittings will usually show the pipe size.
- If your pipe has no size indicated on it:
 - Measure with a pipe caliper.
 - Measure the outside diameter of the pipe and convert to pipe size.
 - Measure the circumference of the pipe and convert to pipe size

Please contact us with any questions and we will happily advise you on what **K Saver®** PVC Cut & Curl Jacketing size to order.

AIT Manufacturing, LLC Saving You Energy Time & Money

Thank you for your order. We appreciate your business.
